10 YEARS WARRANTY

Vasari Surfaces
10 Years Product Warranty (“Warranty”)

Warranty Terms

1.Stone Ambassador gives the following Warranty to you, subject to these Warranty Terms as set out in this document.

2. Subject to the exclusions in clause 6, Stone Ambassador warrants that the product will remain free from defects arising from the manufacture of the Product for 10 years of the products life from the date of installation.

3. This Warranty covers defects in the Product associated with the manufacturing of the original slabs of the Product only and does not cover any services provided for or to the Product, including fabrication and installation and any associated workmanship.

4. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

5. This Warranty is available only to the original purchaser of the Product and is not transferable to subsequent property owners or purchasers.

6. Warranty exclusions

The Warranty does not cover any defect in, or damage to the Product,that is attributable to, or is a result of:

i.a defect arising from the fabrication, installation or any other work done to the Product or the transport of the Product prior to its installation;

ii.the Product being used as anything other than a bench top or splash back surface including as flooring, in any outdoor application (including swimming pools) (except if the product is specifically stated as suitable for outdoor application) or any other application involving exposure of the Product to ultraviolet radiation, chemicals, flames or excessive heat;

iii.the Product not being cleaned in accordance with the Vasari Surfaces Care and Maintenance Guide;

iv.mishandling or misuse of the Product;

v.the use of other products and substances that contain trichlorethane or methylene chloride (such as paint removers or stripper) or cleaning agents that have high alkaline/pH levels.

In addition to the above, the following exclusions also apply to this Warranty:

i.this warranty does not cover variations in colour, background tone, or reflectivity on or within the surface of the product, as these differences are inherent to the manufacturing process and are considered natural characteristics of the Product.

ii.cracks and chipping in the Product are not a material fault; cracking is the result of externally induced mechanical stress on the material after installation. The most likely causes are settlement or movement, excessive weight being placed on the tops, such as standing or sitting on them. Heat, as noted in paragraph 6(v), may also result in cracking. Any cracks emanating from a sink cut-out, cook top cut- out or “L” shaped cut-out that have not been manufactured as per our fabrication guide are also not covered under this warranty, as they are not caused by any fault in the material.Chipping, divots, holes, scrapes, dents or marks in the Product caused by knocking objects against the surface or the edges of the surface or other excessive impact damage is not a material fault, as it is normally the direct result of an impact to the surface, and as such it is not covered by this Warranty;

iii.The Product is a very hard material and highly scratch resistant however it is not scratch proof and this Warranty does not apply to scratches which appear on the Product where proper care has not been exercised;

iv.this Warranty does not cover the Product if any part of it has been moved from its original place of installation; and

v.fireplaces vary in design and construction and in the amount of heat output and this Warranty does not apply to any Product that has been damaged when used in such types of installations.

7.Appearance and inspection of the Product

Given that Stone Ambassador Products are manufactured from natural materials, each slab of Product is unique and variations to shading, mineral distribution and reflectivity do occur and are naturally occurring characteristics of the material. Consequently, samples and photographs are indicative only and may vary from the final product and naturally occurring variations in the appearance of the Product caused by artificial or natural lighting are not covered by this Warranty. The appearance of the Product may change as a result of reflected light.

For any purpose associated with this Warranty, all inspections of the surface(s) of the Product must be done in a normal viewing position with the Product being illuminated by “non-critical light”. “Non-critical light” means the light that strikes the surface is diffused and is not glancing or parallel to that surface.

8.Cleaning Requirements

Please refer to the Vasari Surfaces Care & Maintenance instructions which can be found at www. stoneambassador.com.au.

Please note that finishes other than polished such as honed, concrete, natural and rough are more susceptible to showing every day marks and spills and therefore require more routine cleaning.
